SKILLS

Programming Languages: Python, C/C++, JavaScript, Java, SQL, HTML/CSS Libraries/Frameworks: Django, React, Pandas, Transformers, NumPy, Scikit-learn

Tools / Platforms: VS Code, Docker, Git/GitHub, Google Colab, Jupyter, Huggingface

Databases: MySQL, PostgreSQL, MongoDB

Concepts: Machine Learning, Deep Learning, REST APIs, NLP, OOP, Agile

PROJECTS (SOFTWARE + DATA SCIENCE)

Automated MCQs Generation using Natural Language Processing [GitHub] Django, Transformers

• Fine-tuned transformer models to generate MCQs from academic texts for automated exam preparation.

Crop and Fertilizer Recommendation System [GitHub]

Flask, ML, MySQL

• Built a machine learning model to suggest optimal crops and fertilizers based on soil and climate inputs.

Sticky Notes [GitHub]

Django, HTML, CSS

• Developed a blogging platform focused on sharing ML and data science insights.

CERTIFICATIONS

- Associate Python Developer **DataCamp**
- Machine Learning Specialization (Supervised, Unsupervised, and Advanced Learning Algorithms) Coursera (Andrew Ng)
- Associate Data Analyst in SQL **DataCamp**
- Learn Data Analysis with pandas (2024) **Udemy**
- Associate Data Scientist **DataCamp**

Honors & Awards

- Ranked 1st in Faculty across multiple semesters; Graduated with Highest Aggregate in Faculty
- Awarded Full Scholarship for 4 years of Bachelor's study
